About

As a front-end developer with skills in HTML, CSS, JavaScript, React JS and UX/UI design. I am passionate about creating engaging and user-friendly web experiences. With a strong foundation in HTML and CSS, I have the ability to transform design concepts into pixel-perfect, responsive web pages. Additionally, my knowledge of Javascript allows me to enhance interactivity and functionality on websites, making them more dynamic and engaging. I am proficient in React JS, a popular JavaScript library, which enables me to build scalable and reusable components, ensuring efficient and modular code. Furthermore, my understanding of UX/UI principles allows me to create intuitive and visually appealing interfaces that prioritize usability and enhance user satisfaction. With a keen eye for detail and a drive to stay updated with the latest web development trends, I am dedicated to delivering high-quality frontend solutions that meet both user needs and business goals.
